**Dear [Redacted]**

25X1

**Thank you for your letter of January 2, 1948 outlining the present status of the proposal for an American transmitter in Egypt.**

**Such a transmitter, if it goes through, might conceivably be useful to us even in our new location. You will appreciate, however, that communications are no longer the sole determining reason for our proposed move, and that we have no thought of abandoning present plans.**

**Sincerely,**
